Dear Dr. Mittman and the Implementation Science Editorial Team,

We are submitting a revised version of our manuscript “Translating clinical training into practice in complex mental health systems: toward opening the ‘black box’ of implementation” which incorporates the reviewer’s final recommendations and the copy editing suggestions. We revised the sentence on page 13 as recommended by the reviewer. We also expanded somewhat our description in the discussion of a multi-level approach to implementation, adding an additional citation.

Thank you for considering our revised manuscript for publication.

Greer Sullivan, MD, MSPH
