Title: Acceptance and perceived barriers of implementing a guideline for managing low back in General Practice

Version: 2 **Date:** 6 November 2007

Reviewer: Marloes Amantia van Bokhoven

Reviewer's report:

General

Thank you for the opportunity to review the manuscript for the second time. I think the manuscript has improved a lot, within the restrictions of the dataset that was available.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct).

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
