

Reviewer's report

Title: Curricula for teaching the content of clinical practice guidelines to family medicine and internal medicine residents in the US: a survey study

Version: 2 Date: 22 June 2009

Reviewer: Trudy van der Weijden

Reviewer's report:

This paper has improved. Revisions has been made on my major comments.

Minor left-over remarks:

- It remains quite unclear what the hypotheses were behind the independent variables reported on page 7. I would suggest to replace the hypothesis given at the bottom of page 12 to the introduction.
- page 8, bottom: Conducting objective assessment OF KNOWLEDGE
Suggestion to add: of knowledge.
- Page 12: While the LIMITED availability of CPGs Suggestion to add: limited.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare I have no competing interests.
