Version: 4 **Date:** 10 June 2009

Author's response to reviews:

In response to comments received from the Editor on 6 June 2009, the following changes have been made:

- Comments removed from manuscript. They had been addressed in the text but were inadvertently not removed.
- Text references now specify which Additional File each reference should be linked to.
- Reference list and in-text citation updated for QUERI Series introductory article.
- All header & footer text removed except page number.
